**Eyelash Extensions are relatively new phenomena .The extensions are like hair extensions for your lashes.**

### Eyelash extensions, not fake eyelashes

Eyelash extensions are not strips of fake eyelashes. They are individual extensions. Our V For hair and beauty therapist will apply a special bonding agent to each individual extension and attach it to your existing lashes. They are available in various lengths and thicknesses. The extensions are weightless. V For hair and Beauty recommend that a sealant to be applied to strengthen the bond and protect the extension against damage or breaking.

### Tips for Longer Lasting lashes

- For the first two hours after your application do not allow water in contact with the lashes
- For 2 days after lashes treatment do not steam face, use steam bath, swim or wash face with hot water. After 2 days an occasional short visit to a sauna room is fine. However on a daily basis may cause earlier maintenance as the lashes could permanently fall off or tilt in a different direction from your natural lash.
- Do not use waterproof mascara or mascara remover on lashes, as make up remover will affect the bonding of the lashes. Only use water based mascara on lashes tip
- Do not use a lash curler or perm lashes as it will break both the lash extensions and the natural lash
- Do not rub eyes when washing face. Always pat dry lashes after cleansing. An occasional short visit to a sauna room is fine. However on a daily basis may cause earlier maintenance as the lashes could permanently fall off or tilt in a different direction from your natural lash.

### Maintenance

Due to life cycle of a lash being 90 days ,V For hair and Beauty recommends that your maintenance appointment should be every 2-3 weeks to ensure maximum fullness. Not following correct aftercare can cause permanent loss of lashes

If you are not happy with your treatment then get back in touch with us ASAP on 03 3556583 so that we can assess your lashes and reapply if necessary. Please note that another application may be chargeable.

*Most of all...Enjoy ☺*
